

## HOW TO JOIN RADLD'S #THINKLANGUAGE #THINKDLD TIKTOK TAKEOVER

- Get the TikTok app on your phone and see what all the fuss is about. Warning! You will get distracted watching all of the hilarious TikToks out there. Enjoy, but then re-focus and get back to helping us Take over TikTok!
- Head over to Youtube or Google and look up tutorials on how to make TikToks. Easier than you think. Or you can just ask most young people and they will show you how.
- For the 2021 campaign consider making your TikTok about what it's like to be a student with DLD. Share your experiences from the classroom, or as a parent trying to support your child. Therapists and educators can share their insights of what it's like to work with students with DLD, and tips on how to support them at school. Or just sharing the two students in every classroom with DLD stat is powerful enough.
- Be sure to use the following hashtags when you post your TikToks #fyp #foryou #DidYouKnow #edutokmotivation #thinklanguage #thinkdld #RADLD. These hashtags will help people find our TikToks and also help get our hashtags trending as our TikToks will be grouped together under certain DLD specific hashtags.
- If you're on FB, Instagram & Twitter download your TikToks and share them with those pages as well. Or you can connect your Instagram and Youtube accounts to TikTok and do it that way.
- Please also tag RADLD in all TikToks you share on Facebook, Instagram, and Twitter so we can reshare!
- Keep making DLD TikToks and posting right up to DLD Awareness Day and beyond. The more you post and share the more awareness we can build. Remember that your story is powerful and **IMPORTANT!**
