# Developmental Language Disorder Day

## #DLDDay

DLD is 50 times more prevalent than hearing impairment and 5 times more prevalent than autism.

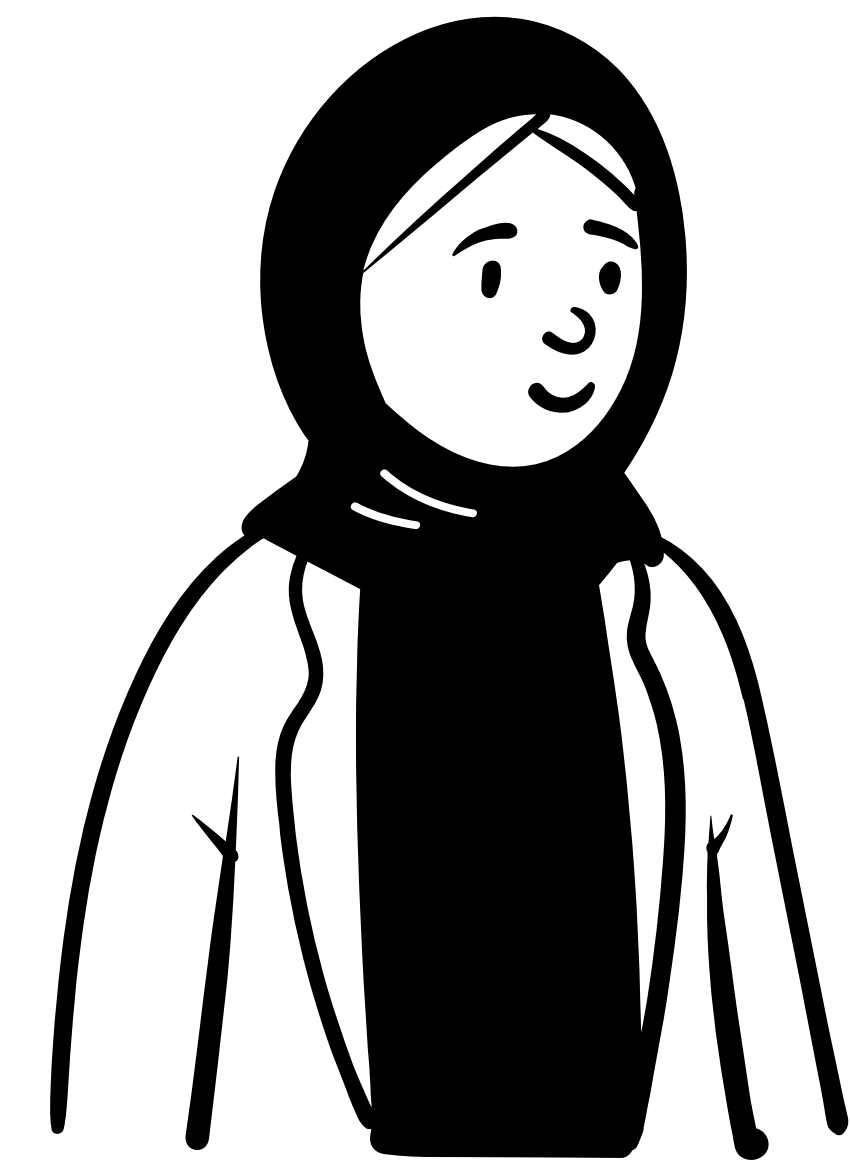

*McGregor, 2020*

People with DLD are 6 times more likely to have reading difficulties

*Young et al., 2002.*

# DLDD

People with DLD can succeed despite their language difficulties.

*Conti-Ramsden et al., 2017*

Having DLD can make it hard to use language to make friends and get along in groups.

*Redmond, 2004*

4 out of 5 children with identified emotional and behavioural problems may have unidentified DLD.

*Hollo et al., 2014;  
Benner et al., 2009*
